JOTHIKUMAR R

Graduate Software Engineer | Full-Stack Developer | Open Source Enthusiast

kumarjothikumar25@gmail.com | +91 8883429682 | linkedin.com/in/jothikumar-r-437b67259 | github.com/Jothikumar10 | Poosaripatty, Salem, Tamil Nadu, India

PROFESSIONAL SUMMARY

Motivated Computer Science graduate with strong hands-on experience in full-stack web development using the MERN stack. Passionate about open source software and Linux-based systems. Demonstrated ability to design, develop, and deploy end-to-end web applications. Published researcher in AI-driven agricultural technology. Eager to contribute to Ubuntu and the broader open source ecosystem at Canonical, bringing enthusiasm for collaborative engineering and continuous learning.

EDUCATION

B.E. Computer Science and Engineering Nov 2022 – Apr 2026

R P Sarathy Institute of Technology, Salem, Tamil Nadu

Overall Percentage: 73.2% (7.32 CGPA)

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Java, SQL, Bash, HTML, CSS
Frontend	React.js, Tailwind CSS, Bootstrap, Responsive UI Design
Backend	Node.js, Express.js, REST API Design, Flask (Python)
Databases	MongoDB, MongoDB Atlas, SQL
DevOps/Tools	Git & GitHub, VS Code, Thunder Client, Render, Compass
OS & Systems	Ubuntu Linux, Linux CLI, file system navigation

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern — ImageCon Academy Mar 2025 – Dec 2025

- Built dynamic, responsive full-stack web applications using MongoDB, Express.js, React.js, and Node.js
- Designed and integrated RESTful APIs to connect frontend and backend services
- Implemented secure authentication systems and database management workflows
- Gained practical experience in frontend UI design, backend architecture, and deployment on Linux-based environments

PROJECTS

Event Hub — Full-Stack Event Management Platform MERN Stack

- Developed a web application enabling users to create, manage, and discover events with secure registration and booking
- Implemented full CRUD operations for event management with JWT-based authentication
- Designed an interactive and responsive UI using React.js with seamless REST API integration
- Deployed on Render; version-controlled on GitHub

Freelancers & Clients Platform — Marketplace App Node.js / React.js / MongoDB

- Built a full-stack marketplace connecting freelancers with clients for project posting, bidding, and collaboration

- Developed secure backend services with Node.js and Express.js; managed structured data using MongoDB
- Implemented responsive React.js frontend with role-based views for freelancers and clients

Horizon Quest — Travel Discovery Web App HTML / CSS / JavaScript / Bootstrap

- Created a visually engaging, fully responsive travel web application showcasing destinations and booking experiences
- Focused on UX design and accessibility; built with vanilla JavaScript and Bootstrap for cross-device compatibility

RESEARCH PUBLICATION

An AI-Based Plant Disease Detection and Agri E-Commerce System using Flask and MongoDB

International Journal of Engineering and Extended Technologies Research (IJEETR)

- Designed and developed an AI-driven disease detection system integrated with an agricultural e-commerce platform
- Used Flask for backend API development and MongoDB for scalable data management; contributed to design, development, and technical documentation

CERTIFICATIONS & COURSES

- Full Stack Development — Novi Tech
- JavaScript — Infosys Springboard
- React.js — ImageCon Academy
- SQL — Simplilearn
- Client-Server Application — Algo Jaxon Pvt. Ltd.
